THE TRIPS

TRANSPORT

The transport's organisation has become particularly complicated to implement, with difficulties to find available buses for our trips.

It's added to a costs' increase, especially during this second semester.

In this context, we're doing our best to preserve this service but we have to make do with a lowered offer of available seats and an increase of the seat's price, which can not be totally in charge of us.

We remind you that the University already subsidises a part of the transport cost.
